

Pole Base Vegetation Clearing Agreement

I/we _____ of _____

Western Australia, request you not to undertake any fire prevention vegetation clearing in the clearance zone around the base of your electricity poles/structures:

- identified by installed numbered metal tags that correspond to the numbers in Part 1 of the Schedule; and
- that are situated on the property identified in Part 2 of the Schedule,

Until six (6) months have elapsed from the date on which I/we give you written notice to cancel this request.

I/We agree with you that in consideration for your acceptance of my/our request, I/we will maintain the ground in the clearance zone of each pole/structure clear of flammable vegetation and materials, at all times; and:

- release you from any claim that I/we might otherwise have for loss or damage that I/we suffer; and
- indemnify you from any claim that any third party brings against you for loss or damage,

that is caused by or attributable to fire that starts on or escapes from the clearance zone of any pole/structure due to the operation or failure of any of the electrical apparatus or equipment associated with that pole/structure, while this agreement is operative.

I/We agree with you that this agreement takes effect according to its terms:

- despite any earlier agreement made between us including a contributory extension scheme agreement; and
- regardless of any payment I/we make to you by way of a contribution to the maintenance of the poles and structures, including vegetation clearance.

In this agreement the clearance zone means the area shown in drawings:

- M3-1 (Attachment A); and
- M3-2 (Attachment B).

Schedule

Part 1 – Pole/structure details

Part 2 – Property

Submission of this agreement

Please post, email or fax this agreement form to your nearest Horizon Power office (details below)
